

FOR IMMEDIATE RELEASE

ADVANCED VACUUM OPENS STOCKHOLM SALES AND SERVICE CENTER

ST. PETERSBURG, Fla. (May 2, 2019) — Advanced Vacuum Distribution, an equipment distributor and service provider serving the vacuum equipment industries, has opened a new service center in Sweden.

Advanced Vacuum is the Certified Service Agent and Distributor of Edwards products in Sweden. The new Advanced Vacuum Distribution Service Center is located in Uppsala, Sweden. This center will provide Sales and Service coverage for the entire Stockholm and surrounding regions.

Peter Christensen, CEO, said, “This new AVD facility will increase the availability of service and technical support for existing and new customers. We are excited to see the increased demand from our customers and happy to be able to expand to meet this demand.”

The Stockholm office will be led by Jonas Wermenstam and will focus on the distribution and service of all Edwards products.

About Advanced Vacuum Distribution

Founded in 1993, Advanced Vacuum Distribution sells and services products from top manufacturers serving the semiconductor and vacuum industries. Its products include vacuum pumps, cryochillers and coolers from manufacturers including Edwards, Advanced Energy, Entegris, CTI Cryogenics, and Horiba STEC.
